EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James R. Crawford on 6/21/05.

The application has been amended as follows: In claim 27, line 4, after (b), insert "; wherein the sustained release form provides sustained release for at least about 8 hours."

2. The following is an examiner's statement of reasons for allowance: The claims are drawn to a sustained release formulation which releases for about at least 8 hours and comprises a cationogenic chitosan, an alpha lipoic acid and a secondary acid. This unique combination not found in the art provides an improved and unexpected release for the alpha lipoic acid compound. This release improves the bioavailability of the formulation and its overall effectiveness. Further the interaction of the cationic polymer and the anionic lipoic acid is required for this release. In order to achieve this release the alpha lipoic acid must first interact with an acid component before interacting with the polymer in order to ensure a hydration of the compound. The matrices of the prior art do not allow for this interaction and would result in insufficient release. The Richardson reference discloses an alpha lipoic formulation, but does not disclose the interaction between the second acid and a hydration step that leads to an improved release. For these reasons at least the claims are novel over the prior art.

Application/Control Number: 10/088,875 Page 3

Art Unit: 1618

3. Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for

Allowance."

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Micah-Paul Young whose telephone number is 571-272-0608.

The examiner can normally be reached on M-F 7:00-4:30 every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Thurman K. Page can be reached on 571-272-0602. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
